Numerous Fluctuations in Wheat, but the Margin in All Cases Is Narrow.

Corn Opens a Trifle Higher, and Closes at Prices Current on Tuesday-Oats Lower-Provisions Dull and Without luterest.

MONEY, BONDS AND STOCKS.

No Change in the New York Situation, the Business B-ing Confined to Professionals. NEW YORK, June 27. - Money was easy at 13 percent., closing at 1014.

Prime mercantile paper, 426 per cent. Sterling exchange was dull and barely steady at \$4.874 for sixty-day bills and \$4.884 for de-

The total sales of stocks to-day were 94,040 shares, including the following: Delaware, Lackawanna & Western, 5,525; Lake Shore, 4,420; Louisville & Nachville, 2,400; Northwestern, 3,470; Northern Pacific, preferred, 1,400; Oregon Transcontinental, 1, 200; Reading, 17, 100; St Panl, 28,440; Western Union, 4,065.

There is still no change in the situation in Wall street, the public being nowhere visible, and the large professionals holding off until such time se the financial horizon shall clear and a fairly good chance to read the future shall be given. The room traders, at present, have the making of quotations entirely to themselves, about four-fifths of the business recorded being for their account, a great proportion of which is evened up before the close of the day. In the present duliness most of the operations are made on the bear side, and the only support to prices is the covering of "short" contracts, the loan market from day to day indicating a large "shor:" interest. The transactions are for the present extremely small, and fluctuations are confined within afcorrespondingly limited range. To-day's market presented the usual lack of feature, and the total amount of business done became still smaller than any previous day this week. There was some buying of St. Paul, reported to be for Chicago account, upon it, and it reacted promptly. The only distinetive features of the day were the renewal of the advance in Pullman and the movement in Green Bay, which savanced about a point upon the completion of arrangements for builda line from Winons to Omaha under the direction of parties interested in Lackawanna, by which the latter will have a through line from New York to Omaha. The latter stock, however, failed to respond to the news in any manner. The temper of the room was quite feverish at the opening, the traders being divided, but the "bulls" obtained the upper hand and prices during the first half hour moved upward, led by St. Paul, with Pullman and Green Bay following. The movement, however, was of short duration, and the market quickly subsided into the most intense duliness. the sales for the hour between 11 and 12 o'clock aggregating only 7,000 shares. There was more animation after that time, and some pressure was brought to bear upon St. Paul and Reading, which slowly sagged off, carrythem. After delivery hour, however, there was the usual covering of "shorts," and some inside buying of the stocks which had been weak, and most of the declines were recovered before the close, which was dull but firm, generally at ineignificant changes from epening prices. Final prices are almost invariably small

fractions higher, compared with last evening's figures, and Pullman rose 1; per cent.

The railroad bond market was quiet, but exhibited a firmer front than stocks, though the final gains are in most cases insignificant. The sales aggregated \$1,066,000, which was very evenly distributed among the issues traded in. No special feature marked the dealings. Government bonds were dull and steady

State bonds were entirely neglected. Closing our per et. bonds...127 | Kansas & Texas.... 1216 | Cour per cent. coup.128 | Lake Eris & West'n. 1416 Four per cent. coup. 128

CHICAGO, June 27 .- It was a wicked day in wheat for those who tried to follow it. Prices opened a trifle higher, with "bull" news from the Southwest, where rust and rain were endangering the harvest. There was some buying by outsiders, and early cables were encouraging, ilso; on these, prices savanced, July from 80 co to 80je; August to 80je, and December to 83je. Then there was free seiling of July, with some buying of August, and the market went off to 79 c for July and 79 c for August. This was followed by a slight raily, which brought July and August about together, at 80c. Later it was surmised that the leaders were selling out and there was a break which carried July down to 79te, or 1tc under last might, and a still later rally caused it to sell at 80e before the close of the morning session. August kept July very close company. The prices at I P. M. were a stade better than the close last night, as follows: June, 80%; July, 80%; August, 80%; September, 80%; December, 82%. A bulge of %e during the last fifteen minutes of the session was due to the report of thirty boat-loads taken for expostation. Later cables were bearish and the market closed for the day at 80 to July, ic under last night's final figures. Corn opened a shade higher than the closing prices of yesterday, was firm, and advanced ic, influenced to a considerable degree by the receipts falling off some from expectaand offerings were quite liberal, especially of July, and the market sold off Tole, due to a weaker tone of wheat and the free selling of a large local operator. The market then firmed up some, the estimates for tomorrow not showing any improvement and prices reasted & fe, again ruled quite firm and closed about the same as yesterday. Oats opened firm and ranged higher for deliveries, but the market declined some and closed with deferred deliveries a shade lower. Trade was moderate, but it was conducted in a quiet way and without attracting much attention. Provision market was decidedly anathetic. There were no outide orders to cut any figure and trade was given up to scalpers. Price changes were unimportant, the largest being on pork. July sold at \$13.70 and closed at \$13.624. The leading futures ranged as follows:

Opening. 8019 8019 8019 87 8058 7914 7934 7934 7934 8214 4838 4914 4934 4934 Wheat-July ... Corn-July..... June. INDIANAPOLIS MARKETS.

A Summer Dullness Brooding Over Most Branches of Business.

INDIANAPOLIS, June 27. As usual when summer is fairly upon us. trade begins to slacken, and in some departments prices begins to weaken. However, there has been since the 1st of January steadier prices than for the corresponding period in many years. Take coffees; in the first five months of 1887 they varied in price 12 cents; this year but 3 cents. Sugars varied last year 2 cents, this year but | cent. In fact, all staple articles have been quite firm in tone. Dry goods have remained remarkably steady and firm. Old, experienced merchants have looked for a break in the market, but none of importance came, and the situation with the dry goods market is now strong. One of the Boston papers says: "The market for dry goods continues in a satisfactory condition, the call for printed fabrics and ginghams being unusually large. Demand has run well on sateens, percales, foulards and wide cloth specialties, and there is quite a scarcity of several popular makes. Dress ginghams are closely sold up, and jobbers have to wait their turn in getting orders. Plain cottons hold a stronger position and mill agents are confident in regard to the future. Bleached and brown sheetings and shirtings are closely sold up, and an advance in prices is anticiated. I here has been an advance in cambrics wing to the rise in print cloths. All other kinds of colored goods are held at previous prices, with a fair demand. There are no stocks to speak of in first hands, and the mills have arge contracts for the next three months' delivery, so that, with cotton at present prices, there is every indication that prices will be maintained. There is an improved trade in cotton flannels; stocks are very light in jobbers' hands. The clothing trade is in a fairly satisfactory position, the demand during the present month being considerably ahead of the same month last year, and the backwardness of May is quite compensated for. Flannel goods are selling freely, and blankets are steady with moderate sales; in short, the season is closing up quite satisfactory." The produce markets are active; prices on vegetables and fruits downward in their tendency, on poultry, eggs and butter upward in their tendency. Oranges and lemons both in light supply and very firm at the revised quotations of to-day. Other markets pre-

sent no new features. The tone of the market is heavy. Offerings of grain of all kinds are light, and the demand. also, is quite limited. The bid for No. 2 red (83c) was an extreme price. White corn is in fair demand. Other grades are slow sale. Track oids ruled as follows:

Wheat-No. 2 red..... Corn-No. 1 white..... No. 2 white..... No. 2 yellow...... No. 2 mixed..... Hay-No. 1 timothy...... 16.00
